

Mats Julius Stensrud

MD Dr.philos

Personal details

Address 39 Thorndike street, 02446 Brookline, MA, USA

Phone +47 48211951

Email m.j.stensrud@medisin.uio.no

Work experience

- 2018- **Fulbright scholar**, *Dep. of Epidemiology*, Harvard School of Public Health, USA.
100% since September 2018. Causal Inference, Survival analysis, Epidemiologic methods
- 2018 **Residency**, *Dep. of Medicine*, Diakonhjemmet Hospital, Oslo, Norway.
50% position March-September 2018. Clinical training in internal medicine (LIS 2)
- 2018 **Postdoctoral fellow**, *Dep. of Biostatistics*, University of Oslo, Norway.
50% position since March 2018. Causal Inference, Survival analysis, Epidemiologic methods
- 2016-2018 **Intern**, *Dep. of Medicine and Dep. of Surgery*, Diakonhjemmet Hospital, Oslo.
100% position. Clinical training in internal medicine and general surgery (LIS 1 / Turnus)

Education

- 2016 **MD**, *Medical doctor*, University of Oslo, Norway.
- 2015 **Dr.philos**, *Neuroscience*, University of Oslo, Norway.
Dissertation: Non-classical release of classical neurotransmitters
- 2014 **MSc**, *Applied Statistics*, University of Oxford, United Kingdom.
Best achievements in the MSc program
- 2013 **BSc**, *Mathematics*, University of Oslo, Norway.

Teaching

- 2018 **HT194 (Clinical Epidemiology)**, *Harvard Medical School*, Harvard University.
Teaching assistant for Prof. Miguel Hernan.
- 2018 **HEL8020 (Causal inference)**, *Faculty of Medicine*, University of Tromsø, Norway.
Lecturing PhD-students and researchers causal inference methods for Health Registry Data.
- 2015 **MF9490 (Statistics)**, *Faculty of Medicine*, University of Oslo, Norway.
Lecturing statistics for PhD students in the Laboratory animal handling course.
- 2014-2016 **MED1100 (Statistics)**, *Faculty of Medicine*, University of Oslo, Norway.
Classroom teaching. Introduction to statistics for 1st year MD students.

Student supervision

- 2018- **Matias Janvin**, *Faculty of Medicine*, University of Oslo, Norway.
MD student, research on causal inference methods (main supervisor).
- 2017- **Pål Christie Ryalen**, *Faculty of Medicine*, University of Oslo, Norway.
PhD student in biostatistics (co-supervisor). Defence September 4th 2019.

Fellowships and grants

- 2018 **Fulbright Research Scholar**, *Dep. of Epidemiology*, Harvard University.
Causal Inference (Collaboration with Prof. Miguel Hernan)
- 2018 **Unger Vetlesen Scholarship**, *Dep. of Epidemiology*, Harvard University.
- 2015 **Eckbo Legat**, *Dep. of Statistics*, University of Oxford.
- 2014 **Jansen Scholarship**, *Dep. of Statistics*, University of Oxford.
- 2013 **Norway Oxford Scholarship**, *Dep. of Statistics*, University of Oxford.
Awarded to one Norwegian annually
- 2013 **Senior Scholarship**, *Dep. of Statistics*, University of Oxford.
For excellent academic records
- 2012, 2014 **Sønneland Scholarship**, *Faculty of Medicine*, University of Oslo.
- 2011 **Apeland Viking Scholarship**, University of Wisconsin-Madison.
Studies in health Communication. Awarded to one Norwegian annually
- 2009 **Fulbright Scholarship for Outstanding European Students**, Drexel University.
Social science and American history

Awards

- 2018 **Rothman Prize (Runner Up)**.
Runner up for best article in Epidemiology in 2018.
- 2018 **Statistical Excellence Award for Early-Career Writing (Runner Up)**.
Runner up for best article in 2018 (Joint with Morten Valberg).
- 2018 **Best Paper Award**, *Norwegian Epidemiological Association*.
Inequality in cancer risk suggest bad genes rather than bad luck, Nature Communications.
- 2014 **Gutierrez-Toscano Prize**, *Dep. of Statistics*, University of Oxford.
I obtained the best achievements in the MSc program in Applied Statistics.

Talks

- 2019 **Ulm Mathematical Colloquium**, *Invited*, Ulm, Germany.
Causal Inference in Continuous Time
- 2019 **Society of Epidemiologic Research**, *Invited*, Minneapolis, USA.
Separable effects: new estimands for causal inference in competing risk settings
- 2019 **Lifetime Data Science: Foundations and Frontiers**, *Invited*, Pittsburgh, USA.
New Estimands for Causal Inference in the Presence of Competing Risks
- 2019 **Atlantic Causal Inference Conference**, *Contributed*, Montreal, Canada.
Causal inference in the presence of competing risks

- 2019 **European Causal Inference Meeting**, *Contributed*, Bremen, Germany.
Separable effects: New estimands for causal inference in competing risk settings
- 2018 **European Causal Inference Meeting**, *Contributed*, Florence, Italy.
Marginal structural models for survival analysis in continuous time: Theoretically appealing and practically feasible
- 2017 **Causal Inference for Longitudinal Data**, *Invited*, Columbia University, USA.
- 2016 **NordStat, The Nordic Statistical Meeting**, *invited*, Copenhagen, Denmark.
- 2015 **Instrumental Variables and Causal Inference**, *invited*, Copenhagen, Denmark.

Peer Review Service 2017-2019

- Annals of Internal Medicine
- British Medical Journal (BMJ)
- Epidemiology
- Annals of Applied Statistics
- Scandinavian Journal of Statistics
- Biometrical Journal
- Medical Research Council, United Kingdom

A: Peer-reviewed publications with original content
