

# Mats Julius Stensrud

*MD Dr.philos*

## Personal details

Address Chemin de l'Ochittaz 3, Saint Sulpice, Vaud, Switzerland  
Email mats.stensrud@epfl.ch

## Current job

Sep 2020- **Tenure-Track Assistant Professor and Chair of Biostatistics**, *Dep. of Mathematics*, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland.  
Biostatistics, Causal Inference.

## Work experience

2018-2020 **Fulbright scholar and Kolokotronis fellow**, *Dep. of Epidemiology*, Harvard School of Public Health, USA.  
Since September 2018. Causal Inference, Longitudinal data. Statistical methodology

2018 **Residency**, *Dep. of Medicine*, Diakonhjemmet Hospital, Oslo, Norway.  
50% position March-September 2018. Clinical training in internal medicine (LIS 2)

2018 **Postdoctoral fellow**, *Dep. of Biostatistics*, University of Oslo, Norway.  
50% position since March 2018. Causal Inference, Survival analysis, Epidemiologic methods

2016-2018 **Intern**, *Dep. of Medicine and Dep. of Surgery*, Diakonhjemmet Hospital, Oslo.  
100% position. Clinical training in internal medicine and general surgery (LIS 1 / Turnus)

## Education

2016 **MD**, *Medical Doctor*, University of Oslo, Norway.

2015 **Dr.philos**, *Neuroscience*, University of Oslo, Norway.  
Dissertation: Non-classical release of classical neurotransmitters

2014 **MSc**, *Applied Statistics*, University of Oxford, United Kingdom.  
Best achievements in the MSc program

2013 **BSc**, *Mathematics*, University of Oslo, Norway.

## Teaching

2019-2020 **HT194 (Clinical Epidemiology)**, *Harvard Medical School*, Harvard University.  
Teaching assistant for Prof. Miguel Hernán.

- 2019 **EPI207 (Advanced Epidemiologic Methods)**, *Harvard School of Public Health*, Harvard University.  
Teaching assistant for Prof. James Robins.
- 2017 **HEL8020 (Causal inference)**, *Faculty of Medicine*, University of Tromsø, Norway.  
Lecturing PhD-students and researchers causal inference methods for Health Registry Data.
- 2015 **MF9490 (Statistics)**, *Faculty of Medicine*, University of Oslo, Norway.  
Lecturing statistics for PhD students in the Laboratory animal handling course.
- 2014-2016 **MED1100 (Statistics)**, *Faculty of Medicine*, University of Oslo, Norway.  
Classroom teaching. Introduction to statistics for 1st year MD students.

## Student supervision

- 2019- **Mari Brathovde**, *Faculty of Medicine*, University of Oslo, Norway.  
PhD-student, research on epidemiologic methods (co-supervisor).
- 2018 **Matias Janvin**, *Faculty of Medicine*, University of Oslo, Norway.  
MD student, research on causal inference methods (main supervisor).
- 2017-2019 **Pål Christie Ryalen**, *Faculty of Medicine*, University of Oslo, Norway.  
PhD in biostatistics (co-supervisor). Thesis defended September 5th 2019.

## Fellowships and grants

- 2019-2020 **Kolokotronis Fellow**, *Dep. of Epidemiology*, Harvard University.  
Causal Inference
- 2018-2019 **Fulbright Research Scholar**, *Dep. of Epidemiology*, Harvard University.  
Causal Inference
- 2018 **Unger Vetlesen Scholarship**, *Dep. of Epidemiology*, Harvard University.
- 2015 **Eckbo Legat**, *Dep. of Statistics*, University of Oxford.
- 2014 **Jansen Scholarship**, *Dep. of Statistics*, University of Oxford.
- 2013 **Norway Oxford Scholarship**, *Dep. of Statistics*, University of Oxford.  
Awarded to one Norwegian annually
- 2013 **Senior Scholarship**, *Dep. of Statistics*, University of Oxford.  
For excellent academic records
- 2012, 2014 **Sønneland Scholarship**, *Faculty of Medicine*, University of Oslo.
- 2011 **Apeland Viking Scholarship**, University of Wisconsin-Madison.  
Studies in Health Communication. Awarded to one Norwegian annually
- 2009 **Fulbright Scholarship for Outstanding European Students**, Drexel University.  
Social science and American history

## Awards

- 2018 **Rothman Prize (Runner Up)**.  
Runner up for best article in Epidemiology in 2018.
- 2018 **Statistical Excellence Award for Early-Career Writing (Runner Up)**.  
Runner up for best article in 2018 (Joint with Morten Valberg).

- 2018 **Best Paper Award**, *Norwegian Epidemiological Association*.  
*Inequality in cancer risk suggest bad genes rather than bad luck*, Nature Communications.
- 2018 **Candidate at the Lindau Nobel Laureate Meeting**.  
The Norwegian participant in the 68th Lindau Nobel meeting with 39 Nobel Laureates.
- 2014 **Gutierrez-Toscano Prize**, *Dep. of Statistics*, University of Oxford.  
I obtained the best achievements in the MSc program in Applied Statistics.

## Selected talks

- 2020 **Joint Statistical Meeting**, *Contributed*, Philadelphia, USA.  
Causal Inference Conditional on a Post-Treatment Event
- 2018 **European Causal Inference Meeting**, *Contributed*, Oslo, Norway (Online due to COVID-19).  
Conditional Separable Effects
- 2020 **Boston University Causal Inference Seminar**, *Invited*, Boston University, USA.  
The separable effects: New estimands for causal inference in time-to-event settings
- 2019 **Causal Inference Reading Group**, *Invited*, University of Pennsylvania, USA.  
Separable Effects
- 2019 **Ulm Mathematical Colloquium**, *Invited*, Ulm, Germany.  
Causal Inference in Continuous Time
- 2019 **Society of Epidemiologic Research**, *Invited*, Minneapolis, USA.  
Separable effects: new estimands for causal inference in competing risk settings
- 2019 **Lifetime Data Science: Foundations and Frontiers**, *Invited*, Pittsburgh, USA.  
New Estimands for Causal Inference in the Presence of Competing Risks
- 2019 **Biostatistics group meeting, Harvard Pilgrim Health Care Institute**, *Invited*, Boston, USA.  
Separable effects for competing risks settings.
- 2019 **Atlantic Causal Inference Conference**, *Contributed*, Montreal, Canada.  
Causal inference in the presence of competing risks
- 2019 **European Causal Inference Meeting**, *Contributed*, Bremen, Germany.  
Separable effects: New estimands for causal inference in competing risk settings
- 2018 **European Causal Inference Meeting**, *Contributed*, Florence, Italy.  
Marginal structural models for survival analysis in continuous time: Theoretically appealing and practically feasible
- 2017 **Causal Inference for Longitudinal Data**, *Invited*, Columbia University, USA.
- 2017 **Workshop on Causal Inference in Health Registry Research**, *Invited*, Oslo, Norway.
- 2016 **Biostatistics seminar**, *Invited*, Oslo, Norway.
- 2016 **NordStat, The Nordic Statistical Meeting**, *Invited*, Copenhagen, Denmark.
- 2016 **Bergen Biostatistical Seminar**, *Invited*, Bergen, Norway.
- 2015 **Instrumental Variables and Causal Inference**, *Invited*, Copenhagen, Denmark.

## Peer review service 2017-2020

- Statistical Science (2020)
- Lifetime Data Analysis (2020)
- European Journal of Epidemiology (2020)
- American Journal of Epidemiology (2019, 2020)
- Biometrics (2020)
- Biometrika (2019, 2020)
- Statistics in Medicine (2019)
- Scandinavian Journal of Statistics (2019, 2020)
- Epidemiology (2018, 2019, 2020)
- Biometrical Journal (2018)
- Annals of Internal Medicine (2018, 2019, 2020), awarded top grade reviewer.
- British Medical Journal (BMJ) (2018)
- Annals of Applied Statistics (2017)

## Other professional activities

- 2020 **Conference on Uncertainty in Artificial Intelligence (UAI)**, *Program Committee*, Vancouver (Virtual due to COVID-19).
- 2019-2020 **Kolokotronis Symposium on Data Science**, *Organizer of monthly seminars*, Harvard School of Public Health.
- 2017-2018 **Medical Research Council**, *Grant reviewer*, United Kingdom.

---
